AN APPARATUS AND METHOD
TO ENABLE DEVICE-TO-DEVICE
(D2D) DISCOVERY IN CELLULAR
NETWORKS

Systems and methods for arranging
MAC layer PDUs in a downlink burst

Uplink feedback channel reporting
mechanism in wireless systems

Apparatus, systems and methods
adapted for opportunistic forwarding
of uplink short messages in wireless
metropolitan area networks

Method and apparatus for
interference mitigation in wireless
systems

Hujun Yin

CEO, Founder at XINJI Technology

San Jose

Summary

Lead of broadband wireless standards and research

Specialties: wireless communication, radio access protocols,
signaling processing, wireless standards: WiMAX, WiFi, 3GPP

Experience

XINJI Technology co., Ltd.

CEO, Founder

January 2020 - Present (1 year 9 months)

Shanghai, China

Intel Corporation

16 years

Senior Director Connectivity Standards and Systems

March 2013 - 2020 (7 years)

Principal Engineer

January 2007 - March 2013 (6 years 3 months)

Director of Radio System Technology

Principal wireless architect

November 2004 - December 2006 (2 years 2 months)

Vivato Inc.

Senior wireless architect

2002 - 2004 (2 years)

Senior wireless architect for WiFi smart antenna solutions

AT&T

Senior member of technical staff

2001 - 2002 (1 year)

Senior member of technical staff at AT&T Labs-research

Education

University of Washington

Ph.D, Electrical Engineering · (1998 - 2001)

Shanghai Jiao Tong University

MS, Electrical Engineering · (1995 - 1997)

Shanghai Jiao Tong University

BS, Electrical Engineering · (1991 - 1995)
